

Minor in Geography

PROGRAM OVERVIEW A minor in geography (emphasizing cultural geography) may be combined with an academic major in another discipline. Geography is the holistic study of the earth's surface features, factors, processes and relationships, and how they change over space and time. An understanding of geography is essential in an increasingly populated world where environments are more strained, economies are more global, and cultures are more intermingled.

REQUIREMENTS FOR MINOR Minimum of 19 credit hours in geography. All geography minors complete a 10-credit-hour core of introductory courses — ENSP 21 and SCSG 3 — and the introductory techniques course, ENSP 65. In addition, the geography minor requires at least two three-credit upper-division courses in geography.
