AP, IB, and CLEP Credit

For Students Entering Fall 2005

Drake University awards advanced standing credit through several programs. In consultation with faculty advisers, all credits accepted are applied toward completion of Drake Curriculum, major or elective requirements. Course equivalencies shown are used as guidelines in the process and are subject to change.

During orientation and registration, students are encouraged to register for classes according to the guidelines for advanced credit and the scores they expect to achieve. If actual scores are different from those anticipated, class schedules may be adjusted accordingly after arrival on campus. Official transcripts must be provided to the Center for Student Records and Academic Information directly from the issuing organizations prior to the beginning of a student's first semester at Drake.

ADVANCED CREDIT LIMITATIONS.

Duplication: Credit will not be granted for any AP, IB or CLEP exam for which college credit has already been earned. Students will not be granted credit for a lower-level course in a sequence of courses after credit in a higher-level course has been earned.

Science Majors: Students majoring in a science, a pre-professional science-related field or pharmacy should contact the appropriate department or college to verify how science credits earned through these programs will be applied to the major.

Advanced Placement Program (AP)

Faculty advisers will determine whether acceptable AP coursework will be applied toward Drake Curriculum, major or elective requirements. Credit for other AP examinations will be reviewed as needed.

College-level Education Program (CLEP)

Any undergraduate student may qualify to earn credit towards graduation through the CLEP Subject Examinations listed below. The subject exams are essentially end-of-term tests designed to measure achievement in specific college courses.

For any subject exam, the required score may change from year to year. Students are not eligible to earn credit through an examination if they have withdrawn from an equivalent course after the midpoint of the semester. Students who have taken either semester of introductory accounting are not eligible to earn credit by exam for the remaining semester. The maximum possible credit granted through CLEP is 39 hours.

Students with strong backgrounds in any of the following subjects are advised to take the corresponding subject examination. Students must achieve the Drake required score to earn credit in the subject area.

Exam	Required score	ACE std	Hours earned	DU equivalent
American Government	50	50	3	POLS 1
Biology	50	50	4	BIO 1
Chemistry	50	50	4	CHEM 1, 3
