

HOMEWORK ASSIGNMENT 5: INSTRUCTIONS

“More on Aggregate Demand”

Due Tuesday, April 16, 2002

Procedure:

1. Work the problems below outside of class (individually or in groups) *before* the due date.
2. On the due date, discuss the problems with your group at the beginning of class and agree on common answers.
3. Write your group’s answers on *one* answer sheet that I will supply.
4. Have all members sign that sheet.
5. Turn in the group’s sheet.
6. I then grade the answer sheets. All members of each group receive the same grade.

If you miss class on the due date: No one may sign your name on the group’s answer sheet. However, you can still get credit if you turn in your own sheet *before class on the due date*—you will be graded as your own group of one!
