## College of Pharmacy and Health Sciences Update

**MANY OF US ARE UNCOMFORTABLE WITH CHANGE** even though it is a constant part of our daily lives. Each year brings new graduates, students and faculty. The accomplishments of each of these groups are a result of change. Losses are also an example of change. Throughout this update you will see examples of the opportunities and successes that result from embracing change.

### DELTA RX OFFERS TOOLS FOR ADVANCEMENT

During strategic planning last year, the college pledged to advance the pharmacy profession through a commitment to entrepreneurial leadership. Over the last 12 months, the college has engaged in significant conversation, education, development and partner identification.

The first result of these efforts is DELTA Rx – Drake Entrepreneurial Leadership Tools For Advancement. The mission of the DELTA Institute is to advance the profession by empowering practitioners, faculty and students to boldly pursue opportunities for breakthrough achievements. The Institute instills a philosophy of life that embraces innovation and perseveres to affect change.

DELTA Rx offers tools, columns, profiles, articles and courses to pharmacy practitioners, students and faculty. Through a compre-

hensive Web site, [www.deltarx.com](http://www.deltarx.com), you will find articles to facilitate and develop the spirit of entrepreneurial leadership; profiles of pharmacists that describe how they have been successful in business and other areas to positively affect change and advance the profession; stories of practitioners attempting innovation; and tools to assist you in implementing change and innovation in practice and education.

The DELTA Institute courses through Drake University help you build the knowledge base you need to be successful in business or advance your practice by specializing in a specific area. Training programs enable you to get hands-on experience and offer innovation in your practice by accepting a new challenge. Mentoring provides a sounding board for your ideas. Teaching tools help faculty educate students pursuing careers or businesses in the pharmacy industry. We invite you to visit the site, use the resources present, and provide feedback to us for its continued improvement.

### STUDENTS SHINE BRIGHT IN SUMMER INTERNSHIP PROGRAMS

Each summer pharmacy students from Drake University compete nationally for internship programs that provide exemplary experiences, expose them to potential career opportunities and allow them to represent Drake and the professional across the country. A few examples of the internships completed this past summer include:

#### PHARMACY ASSOCIATIONS I

XIN WANG  
*Iowa Pharmacy Association*  
Des Moines

Chicago

#### INDUSTRY/RESEARCH/MISC.

KATIE BUEHLER  
*Mallinckrodt – Pharmacy Dosage*  
Webster Groves, MO

KRISTIN NELSON  
*Fort Dodge Animal Health – Viral Vaccines*  
Fort Dodge, IA

### LEADERSHIP FUND HONORS MEMORY OF JERRY KARBELING

Upon my arrival at Drake in 1997, one of the first individuals I met was Jerry Karbeling. A Drake graduate of the pharmacy class of 1974, Karbeling became a friend and a mentor to me and to many others in our Drake community. Six months after attending his 30-year class reunion in October of 2005, Karbeling passed away after a heart attack.

Karbeling owned and operated Big Creek Pharmacy located in Polk City, IA. Besides practicing pharmacy in his community, he was senior vice president for public affairs and corporate development for the Iowa Pharmacists Association. A Kappa Psi brother, Karbeling cared deeply about the profession of pharmacy. He was a professional leader, community advocate and staunch supporter of Drake and its college of pharmacy. Karbeling personified his commitment to Drake by identifying opportunities for the college; communicating and participating on the college's National Advisory Board; mentoring students to become involved and participate in local, regional and national pharmacy events; and encouraging students to actively participate in the political process.

**I would like to extend a personal invitation to each of you to visit the college.**

**I would love to have you tour the campus, visit a classroom, reestablish ties with your professional organizations...**

In memory of him, the class of 1974 has founded the Karbeling Memorial Leadership Fund. This leadership fund will establish an annual Karbeling award to be given to the student that most demonstrates the values and actions for which Jerry Karbeling was best known: professional involvement, commitment to practice and political advocacy.

Additionally, the fund will sponsor the Karbeling Lecture, an annual event dedicated to promoting the pharmacy profession as vital to the health care system, and create a professional development program on political advocacy for pharmacists and student pharmacists.

### DRAKE PSI CHAPTER WINS NATIONAL AWARD

Drake University's Psi Chapter of Phi Delta Chi placed first overall nationally in the 2005 Thurston Cup. The Emory W. Thurston Grand President's Award (Thurston Cup) is presented to the chapter that has promoted the profession of pharmacy and Phi Delta Chi to the fullest extent during the preceding year.

The Thurston Cup was presented at the Phi Delta Chi Grand Council held in San Antonio, TX in August. In addition to this prestigious award, the chapter also received the following category awards: first in publications, second in leadership and scholarship, fourth in professionalism and service and a 100 percent achievement award.

"Jerry was a mentor to pharmacy students. Anyone that knew him could sense his dedication to and desire to help the community.

Knowing him made you want to become the best pharmacist you could possibly be," says pharmacy major Anthony Pudlo.

Contributions to the Karbeling Memorial Leadership Fund may be sent to the attention of Claudia Cackler, senior advancement officer, Drake University, College of Pharmacy and Health Sciences, 2507 University Avenue, Des Moines, IA, 50311.

### WE WELCOME YOUR RETURN

As I conclude this update, I would like to extend a personal invitation to each of you to visit the college. I would love to have you

tour the campus, visit a classroom, reestablish ties with your professional organizations or fraternities and share your professional and personal triumphs since leaving Drake. I know that the faculty and students support this invitation and would welcome the opportunity to see you during many of the year's upcoming events.

Pharmacy Day on February 7 is a College-wide celebration of the profession during which we honor alumni with the Alumni Achievement Awards. The Weaver Medal of Honor, awarded on April 26, celebrates with the entire campus community individuals that have "left their mark" on the college or the profession. The Hooding Ceremony May 13 and Graduation May 14 is always a time for reliving the joy of this personal and professional milestone. This year, Alumni Achievement Award recipients will be joining us in these important commencement ceremonies to mark the celebration of Drake's 125th birthday. I invite you to join us also and be a part of the celebration.
