Doctor of Pharmacy 4 (12 months/May through May)			
Fall Semester		Spring Semester	
PHAR 285	Rotations	22 CR	PHAR 285 Rotations 18 CR
Total Semester Credit Hours	22	Total Semester Credit Hours	18
Total Program Hours: 226			

Program Notes:

OPTIONAL SUMMER COURSEWORK: Students who wish to complete both degrees in the four professional years will need to plan to complete MPA courses during the summer sessions. Students may enroll in additional summer coursework or complete final MPA courses after PharmD completion. If students wish to take beyond the required credit hours for the semester, they will need to request an "Over 18 Hours Request Form," which can be found in the Forms Library, and the additional coursework will not qualify for an overload fee waiver.

A total of 210 credits are required to complete the pharmacy degree. Five (5) professional elective credits are satisfied by MPA coursework.

Students will be expected to complete the Drake Curriculum requirements if they do not meet the General Education Articulation Agreement. Drake Curriculum requirements not fulfilled through required course work: Artistic Literacy, Historical Foundations, Global and Cultural Understanding, and Written Communication.

Professional Electives Policy: Core curricula of CPHS degree programs may require professional elective courses that permit exploration of and/or advanced study in areas of professional interest within the student's primary degree. Professional electives provide the student with an opportunity to not only pursue areas of intellectual interest, but also to develop an individual "brand" that may benefit them in their professional or academic future. Students who desire to have a non-approved electives count toward professional elective credit should apply for an exception to program policy prior to taking the course whenever possible. Professional electives must be taken for a grade unless the course is designed as credit/no credit. Students should refer to their degree audit for determination of the total number of required professional electives. Students should review the [student handbook](#) for the complete professional elective policy and details specific to their degree program.
