

Johansen Student Center

Ground Floor

Sammons Intercultural Commons and Plaza

Fisher-Stelter Hall

Fisher-Stelter Hall

The Hall was originally built as the dining hall for Morehouse. The Hall will be set daily as a community work space. The Hall will be programmable for events and meetings. Room layouts will include the standard set-up (pictured here) as well as theater and seminar set-ups.

Sammons Plaza

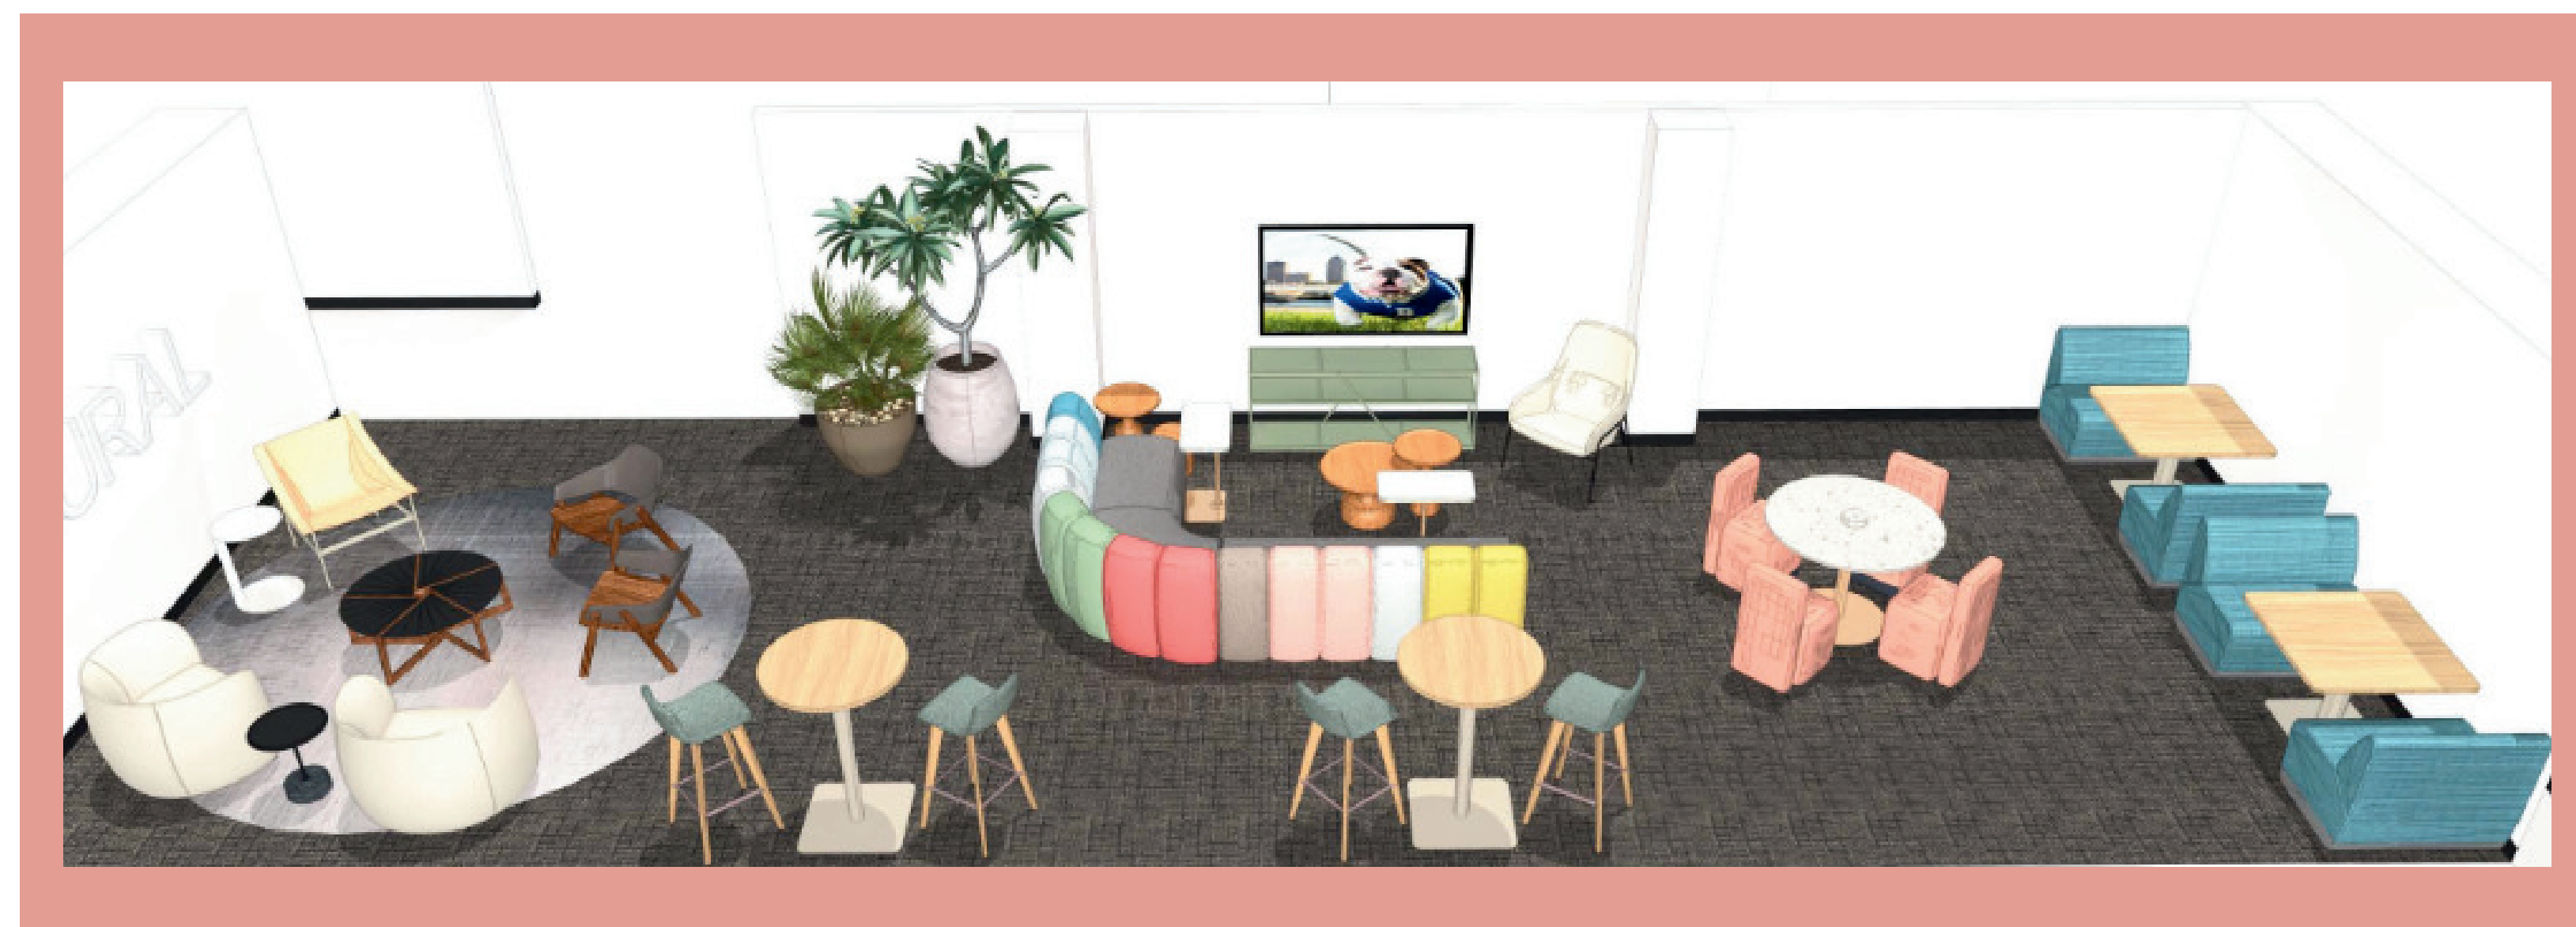

The Sammons Plaza will serve as an extension to the Sammons Intercultural Commons and Fisher-Stelter Hall. The plaza will be reservable and programmable. Imagine small concerts and social events in the Sammons Plaza.

- Space is reservable and furniture can be rearranged to meet the needs of the scheduled program.
- Space is reservable but can also be used freely when not reserved. Furniture is set and room will be used as is.
- Space is not reservable and can be used on a first come first serve basis. Furniture arrangement is set.

Sammons Living Room and Lounge

The Sammons Living Room and Lounge will serve as both formal meeting and casual gathering spaces for Unity Roundtable Organizations. Both spaces are reservable. When not reserved, students are welcome to use them freely.

Sammons Den and Study

The Sammons Den and Study are the heart of the Sammons Intercultural Commons. Both the Den and the Study are come-and-go spaces for students within the Unity Roundtable Organizations to use freely. These spaces are first-come-first-serve. Imagine dropping in with your friends to hang out between classes, or cozying up in the Study for an impromptu study table.
